

Welcome and Introduction

CGI of the proposed pedestrian link

Welcome to our public consultation, which aims to provide information on NHS Property Services' proposals to redevelop land at Edgware Community Hospital with much-needed new homes.

The public consultation also provides background information on the proposals, including our plans to consolidate some existing health and admin services into the main Hospital building and other buildings on the site.

Once you have had a chance to consider our proposals, we would welcome your views. Please take a moment to complete the feedback form provided.

If you have any questions, please do not hesitate to contact a member of the project team on [0800 298 7040](tel:08002987040) or edgwarecommunityhospital@becg.com.

About NHS Property Services

NHS Property Services is a property owner and manager, advisor and service provider, helping to shape the NHS estate for the future.

As a Government -owned company we have one goal: to ensure the NHS makes the right property choices to enable excellent patient care.
