

Our Proposals

Artist's impression of the development

129 new homes

Buildings from 5 to 7 storeys

10% car parking, plus car club spaces

c.250 new cycle spaces

Improved pedestrian and cycle routes

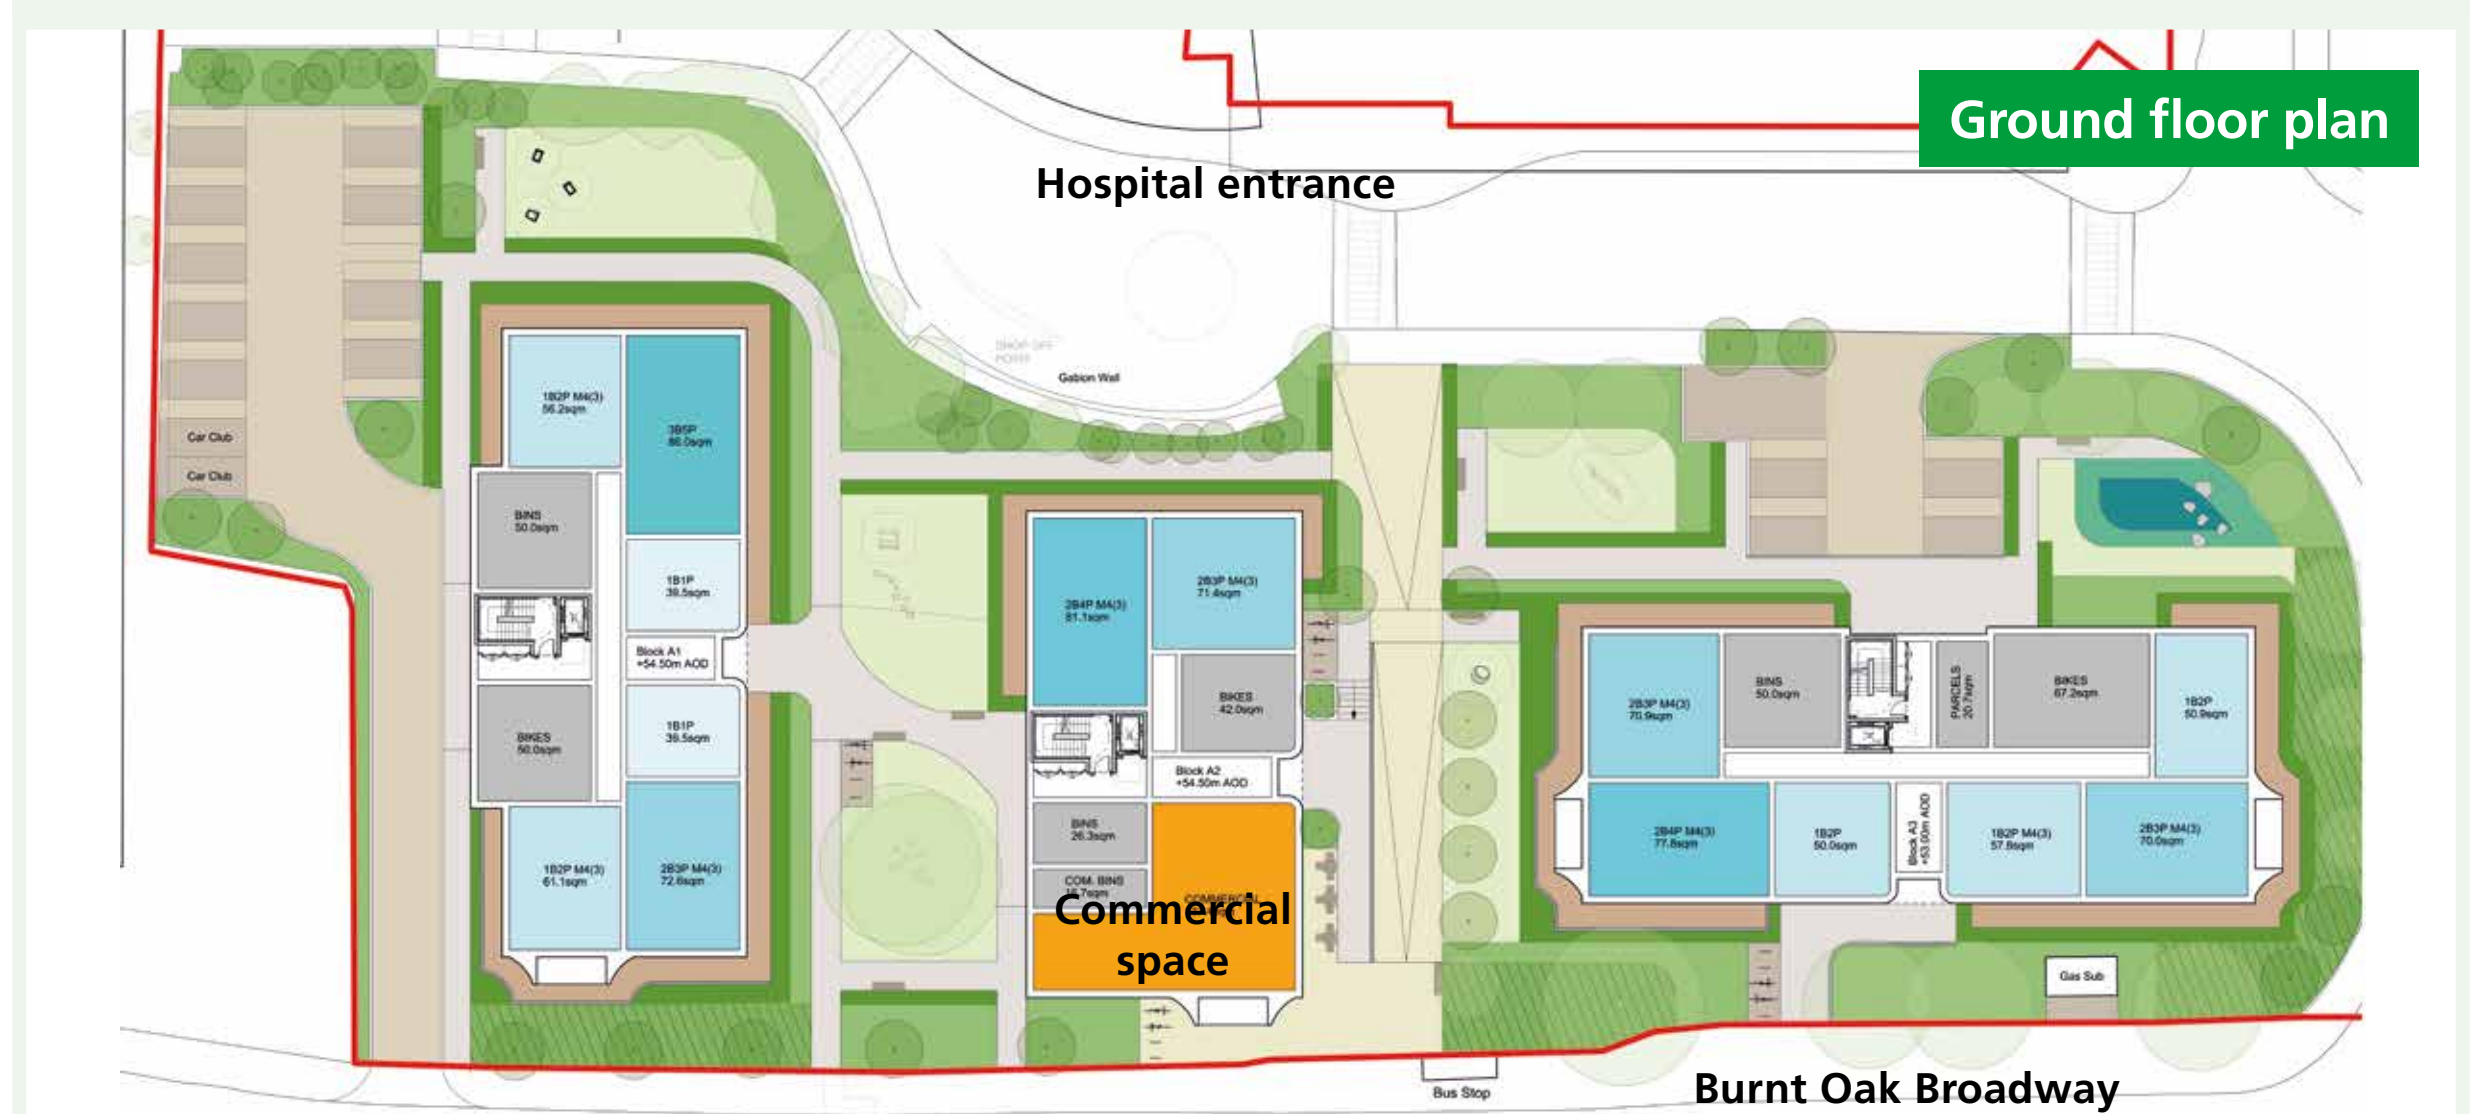

New access via Burnt Oak Broadway

New ground floor commercial or community space

New Commercial or Community Space

We will be providing new commercial or community space that will serve both new residents and hospital users. This is shown in yellow in the image below and will be based along the new pedestrian access route.

Privacy and Daylight/Sunlight

The proposed buildings have been carefully positioned to avoid overlooking, particularly on the Hospital side. This will also allow for daylight/sunlight to penetrate the new buildings to ensure that the site is not overshadowed.
